## BOUNTY/REFERRAL PROGRAM

### ABOUT SPECTRE.ai

SPECTRE, short for speculative tokenised trading exchange, is a financial prediction market platform backed by a tokenised liquidity pool. Built on the Ethereum blockchain, SPECTRE.ai's platform combined with the decentralised and autonomous liquidity pool owned by the token sale investors takes the broker out of the equation completely resulting in a revolutionary change in the trading world and a new level of transparency.

### ABOUT THE BOUNTY/REFERRAL PROGRAM

The SPECTRE.ai team in an effort to reward its biggest enthusiasts is expanding its bounty/referral program even more. Please go over the table below in order to see the additional bonus that you could earn by sharing your unique promo code that is available to you inside the token sale portal. For the biggest evangelist, there is also an option for an advisory position in SPECTRE.ai!

ETH contribution	Bonus Tokens	Lock-up period	Advisory Position
0 - 50	2%	1 month	-
51 - 100	3%	1 month	-
101 - 500	5%	1 month	-

> 10,001	Yes	Phased, starting at 3 months	Yes

The token allocation for this bounty program comes from the tokens earmarked as 'Bounty program' in our allocation documents. In the unlikely case this bonus should exceed the total allocated bounty supply, tokens will be moved from the 'Advisory' allocation to cover the gap. **No tokens from the public supply allocation will be used for this program.** The bonus tokens will be distributed to the owners of the referral codes at the end of the lock-up period that starts on the 10th of December. SPECTRE.ai, as in its pre-sale, **does not negotiate with buyers' groups and MLM groups** as these tend to cause post token sale price instability. Strategic 1 person advisor-investors, preferably with a technical or marketing skill set, who have a long term view, are allowed to contribute larger investments (typically 10k ETH or higher) and receive advisory tokens that are delivered manually after a lock up period in a phased manner to ensure price stability. SPECTRE.ai reserves the right to disqualify promo/referral codes in case they are used for spamming purposes.

### TOKEN SALE UPDATE

The pre-sale ended on the 5th of November 2017 with 22,000+ ETH raised. The public sale starts on the 17th of November 2017 and ends on the 10th of December. There is an 11% bonus given out to the people making a contribution during the first week of the public sale.
